Thermapen™ Barbeque Thermometer
Model: ETI1231-207BBQ
Manufacturer: ETI Limited
<p>Barbecue Thermometers</p> <p>Thermapen™ Barbecue thermometer - perfect for your BBQ cooking</p> <p>The Barbecue Thermapen™ thermometer is ideal for barbecue cooking.</p> <p>This BBQ thermometer is used in barbecue championship's around the world, where the competition is intense to produce perfectly cooked barbecue food - every time.</p> <p>Championship BBQ is already a major phenomenon in the USA and it's something that's spreading to the UK - fast.</p> <p>The BBQ Thermapen™ has a large digital display and gives a precise read-out of temperature over the range of -49.9 to 299.9 °C with a 0.1 °C resolution and an accuracy of ±0.4 °C.</p> <p>The resolution can be switched to 1 °C, if required, via a switch in the battery compartment.</p> <p>The thermometer will power off automatically after ten minutes, maximising battery life. This feature can be disabled if not required.</p> <p>click here to view specification</p> <p>The casing is washable and includes 'Biomaster' additive that reduces bacterial growth and the ergonomic rubber seal minimises the risk of the ingress of water, dust or food.</p> <p>As well as being water resistant, it is still 'probably' the fastest reading contact thermometer on the market today.</p> <p>The true temperature of a product can be tested in under four seconds.</p> <p>click here for printer friendly specification</p> <p>The Thermapen™ Barbecue thermometer is available in 2 colours (Red or yellow) and comes with a free BBQ cookbook</p> <p>Please indicate colour required in comments box at checkout</p>

Traditional Chestnut Roasting Pan 28cm
Model: PH331
Traditional Chestnut Roasting Pan 28cm
<p>Manufactured in Spain from carbon steel to ensure good heat conductivity, this traditional styled Chestnut Roasting Pan is made by Vaello Campos SL leaders in their field</p> <p>The pan which is deep sided and a full 28cm in diameter will allow for lots of chestnuts to be roasted at the same time</p> <p>Highly seasonal, used almost entirely in the 3 months prior to Christmas. This is the simple, traditional carbon steel version, the best conductor of heat and widely used throughout Spain for delicious roasted chestnuts during the festive period.</p> <p>The pan can be used on an open fire, barbeque, chimenea, gas hob etc and requires a little oil to "season " the pan and give the chestnuts a great flavour</p> <p>Vaello Campos SL are so confident of their products that they give this pan a 2 year guarantee against manufacturing faults</p> <p>The holes in the bottom of the pan are designed to assist with heat diffusion and to prevent the chestnuts from burning, the depth of the pan allows for gently shaking to move the chestnuts around for even cooking</p> <p>A little salt added to the pan will help to generate a better flavour to the chestnuts</p> <p>Before first use wash with detergent and dry thoroughly then wipe with a little olive oil to protect and season the pan</p> <p>NOTE Gas ring and stand in larger picture are for illustration purposes only</p>

The Ultimate Pint Glass x 36
Model: JLG 9976N
<p>The Ultimate Pint Glass is a brand new product designed as a result of an initiative started by the UK Government in 2009</p> <p>THE MISSION: to create a safer pint glass</p> <p>The ULTIMATE Pint Glass is the result of an on-going initiative started by the UK Government in 2009. This initiative handed the manufacturing community the challenge to design a product that would help to make drinking venues a safer environment through the reduction of violent injuries caused by glass. Arc International was the only glass manufacturer to be involved, from the beginning, in the initial project handled by Design Bridge</p> <p>The Ultimate Pint Glass has been produced using a new manufacturing technique called Profile Plus. This revolution in the glassware tempering process offers a drinking glass that is up to 5 times stronger than normal annealed glass.</p> <p>The Ultimate Pint Glass also features Stress Fracture Management (SFM) which gives a far greater resistance to mechanical and thermal shock.</p> <p>Each glass uses the SFM System (Stress Fracture Management) which, combined with the shape of the glass, promotes REVERSE BREAKAGE when the glass is violently hit against another surface. This reduces the opportunity of using the glass as a weapon to cause injury as the base is designed to fragment thus dropping from the hand</p> <p>No matter how strong a glass is made, each knock and bump will naturally reduce the lifespan of the structure, but The Ultimate Pint features a lifespan 10 to 15 times longer than other standard glassware. When The Ultimate Pint finally does break, it utilises Stress Fracture Management which promotes Reverse Breakage, ensuring the entire glass shatters into small, blunt fragments, leaving no sharp edges which could be potentially used as a weapon</p>
£73.44

Zodiac Glass Sundae Dish
Model: Z IC-03-06

Poly Carbonate Glassware -/- Elite Nonic Range

Elite Nonic 20oz Pint Glass CE@Pint x 52
Model: BB 204-1
<i>Manufacturer: BBP Marketing</i>
Elite Nonic 20oz Pint Glass CE@Pint pack of 52
Virtually Unbreakable PC Glassware
The Elite Range is manufactured from Clear Polycarbonate material
This material is Food and Drug approved and has superior strength over other plastic materials and therefore the products are virtually unbreakable.
The material is recommended by Police and authorities for safety. Polycarbonate can also be nucleated.
The product has been tested in glass washers (using a recognised glass detergent such as Finish) in excess of 500 cycles with no noticeable visual detracton
PARTY IN SAFETY - NO MORE BREAKAGES!
At last! A range of drinking 'glasses' which won't break.
No more stress and worry about your best glassware being taken out into the garden and damaged, no more worries about animals and children being cut and hurt by broken glass - polycarbonate glasses are toughened, environmentally safe, hygenic (can be washed and re-used many times) - and look as good as they are useful!
The range includes a selection of tumblers, beer glasses, wine, hiball and shot glasses - all designed to look as good as the real thing.
These glasses really do revolutionise outside dining and partying and are great for home entertaining, all those street parties - and also fantastic for the catering trade.
Social clubs and fundraising events can invest in these glasses and keep them for years.
Minimum order quantities apply, but you can club together to meet the (small) number required - just check out our website at http://www.kitchen-2-table.co.uk

At last! A range of drinking 'glasses' which won't break.
No more stress and worry about your best glassware being taken out into the garden and damaged, no more worries about animals and children being cut and hurt by broken glass - polycarbonate glasses are toughened, environmentally safe, hygenic (can be washed and re-used many times) - and look as good as they are useful!
The range includes a selection of tumblers, beer glasses, wine, hiball and shot glasses - all designed to look as good as the real thing.
These glasses really do revolutionise outside dining and partying and are great for home entertaining, all those street parties - and also fantastic for the catering trade.
Social clubs and fundraising events can invest in these glasses and keep them for years.

Stainless Steel Wine Funnel
Model: 4355800
<i>Manufacturer: Abel Santiago</i>
The Wine Funnel is a unique product capable of enhancing the quality of wine. Just pour the wine through the wine funnel directly into a glass or decanter by which the wine will gently fan out and cascade down the interior wall of the glass or decanter to form a "balloon" Furthermore secondary aeration occurs as the escaping air gently bubbles back through the fan of the wine. The Wine Funnel has a small stainless steel mesh filter to trap sediment, cork crumble etc and comes with a stand Can improve the drinkability of both red and white wines by allowing the wines to have more contact with the atmosphere. Ideal for decanting crusted red wines or vintage ports etc A perfect gift for any wine connoisseur.
£39.99

Cheeseboards & Cheese Knives -/- Cheeseknives and Accessories

Cheese Knife and Cheese Grip Set by Prodyne
Model: 4331010
<i>Manufacturer: Prodyne</i>
METALLA Stainless Steel Cheese Knife and Cheese Grip Set by Prodyne. These superb cheese tools are a must for proper cheese service
The Cheese Knife is specially designed with an open surface blade which reduces friction and helps keep cheese from sticking. With its lifetime sharp serrated edge, the knife will produce a perfect slice of cheese every time
The Cheese Grip offers a convenient and clean way to slice and serve cheese. It's large ergonomic handle makes it easy to securely hold a block of cheese in place while you slice
No need for fingers to touch the cheese itself
These tools are crafted from quality 18-8 brushed stainless steel and are rustproof and dishwashersafe
£15.00

Prodyne Set of 2 Cheese Knives
Model: 4331013
<i>Manufacturer: Prodyne</i>
"METALLA" Set of 2 Stainless Steel Cheese Knives by Prodyne. These superb Cheese Knives are a must for proper cheese service
The Long Blade is perfect for cutting, slicing, and cubing medium to firm cheeses like Cheddar, Jack and Swiss
The pointed blade is ideal for cutting semi-firm cheeses like Brie and Camembert. It is also well suited for shaving and breaking hard, aged Parmesan and Romano cheeses
Stylish elongated handles allow for better grip and performance
These knives are crafted from quality 18-8 brushed stainless steel with handles permanently affixed to the blades
They are rustproof and dishwasher safe
£13.95

Prodyne set of 3 Cheese Knives
Model: 4331012
<i>Manufacturer: Prodyne</i>
Set of 3 "METALLA" stainless Steel Cheese Knives with polished wood handles. Three differently shaped cheese knives ideal for cutting any type of cheese Hard, Firm , Semisoft, and Crumbly The Pointed blade is for breaking hard, aged Parmesan and Romano cheeses or crumbly Cheshire and Stilton cheeses The narrow plane -shaped blade can be used for semifirm cheeses like Jack, Cheddar or Jarlesberg and softer cheeses such as Brie or Camembert The wide blade is perfect for cutting crumbly, soft cheese and for making cubes of firm cheese Do not place in the dishwasher but wash with warm soapy water and dry immediately

Cataplanas and accessories

Cataplana S/Steel "Artame" 23cm
Model: 2810223
<p>The Cataplana is an ancient type of pressure cooker which is widely used in Portugal to create the most wonderful meals. The model shown is 23cm and is suitable for 2/3 persons</p> <p>The cataplana is ideal for steaming mussels or clams and you can also cook fish, meat, rice, pasta or vegetable dishes in it. As all the ingredients are placed inside the cataplana which is then sealed the food cooks quicker and without losing any of the flavour or taste.</p> <p>Foods cook quickly in their own natural juices and flavours can be enhanced with herbs and spices resulting in the most memorable of meals. Traditionally the cataplana is brought to the table and the food served from it direct onto the plates, thus reducing the washing up.</p> <p>The Cataplana can be used on the burner rings of conventional gas and electric cookers (not induction), inside the oven, on the barbeque or even in the embers of an open fire.</p> <p>This makes the Cataplana a most versatile cooking utensil furthermore the top lid can be detached from the bottom turning it into a wok style dish for stove top cooking. It comes complete with a set of instructions and some mouth-watering recipes in our Recipe Booklet</p>
£41.99 £32.99

Cataplana S/Steel "Europa" 36cm
Model: 2521121
<i>Manufacturer: Silampos</i>
<p>The Cataplana is an ancient type of pressure cooker which is widely used in Portugal to create the most wonderful meals. The model shown is 36cm and is suitable for 6/8 persons</p> <p>The "Europa" Cataplana has a two handled base for safe handling when hot and a tight fitting lid with a centre handle. It also has a removable perforated base plate which helps to prevent food from sticking to the bottom of the cataplana as it acts as a liquid trap</p> <p>Made of High Quality 18/10 Stainless Steel the "Europa" Cataplana with it's flat base is suitable for all types of heat source including Induction</p> <p>The Cataplana is ideal for steaming mussels or clams and you can also cook fish, meat, rice, pasta or vegetable dishes in it. As all the ingredients are placed inside the Cataplana which is then sealed the food cooks quicker and without losing any of the flavour or taste.</p> <p>Foods cook quickly in their own natural juices and flavours can be enhanced with herbs and spices resulting in the most memorable of meals. Traditionally the Cataplana is brought to the table and the food served from it direct onto the plates, thus reducing the washing up.</p> <p>The Cataplana can be used on the burner rings of conventional gas and electric cookers, ceramic and induction hobs inside the oven, on the barbeque or even in the embers of an open fire.</p> <p>This makes the Cataplana a most versatile cooking utensil furthermore the removable top lid turns the bottom into a wok style dish for stove top cooking</p> <p>It comes complete with a set of instructions and some mouthwatering recipes in our Recipe Booklet</p>
£75.99

<p>The Cataplana is an ancient type of pressure cooker which is widely used in Portugal to create the most wonderful meals. The model shown is 33cm and is suitable for 4/6 persons</p> <p>The cataplana is ideal for steaming mussels or clams and you can also cook fish, meat, rice, pasta or vegetable dishes in it. As all the ingredients are placed inside the cataplana which is then sealed the food cooks quicker and without losing any of the flavour or taste. Foods cook quickly in their own natural juices and flavours can be enhanced with herbs and spices resulting in the most memorable of meals</p> <p>Traditionally the cataplana is brought to the table and the food served from it direct onto the plates, thus reducing the washing up. The Cataplana can be used on the burner rings of conventional gas and electric cookers (not induction), inside the oven, on the barbeque or even in the embers of an open fire. This makes the Cataplana a most versatile cooking utensil furthermore the top lid can be detached from the bottom turning it into a wok style dish for stove top cooking</p> <p>This Cataplana is beautifully crafted in hammered copper and is tin lined to ensure the best heat conductivity to cook the food. It comes complete with a set of instructions and some mouth-watering recipes in our Recipe Booklet</p>

Induction Diffuser Interface Plate 19cm by Artame
Model: 2020419
<p>Induction Interface & Diffuser Plate 19cm by Artame</p> <p>Manufactured in 18/10 Stainless Steel this interface plate is suitable for use on induction, ceramic, electric and gas hobs.</p> <p>Used as an induction interface plate it allows the use of non induction cookware such as aluminium and copper to be used on an induction unit</p> <p>Used as a heat diffuser plate it is specially recommended for terracotta cooking pans , frying pans and cooking ware in general as a "simmer ring" on gas or electric hobs</p> <p>This Induction Interface & Diffuser plate (called a Placa in Spain & Portugal) is a heat diffuser plate designed to be used on ceramic, induction, electric and gas hobs to let you cook with terracotta and other cookware.</p> <p>Made from magnetic steel it is also ideally suited to let you use your favourite old cookware on an induction hob avoiding the cost of having to replace all your cookware with induction pans at one time</p>

For cookware to work on an induction hob it must be magnetic, so ceramic, aluminium, copper and many stainless steel pans will not work.

The diffuser disc sits between the heat source and the cookware and gives control over the heat source to allow for "slow and even heat" cooking in terracotta and tagines etc

Used on an induction hob the converter will heat up and pass the heat through to the pan or cookware placed on it.

The diffuser disc will get hot hence it has a long handle which is designed to stay cool.

A highly versatile piece of equipment to give you complete control over your cooking
Suitable for all pans up to 19cm

We recommend using a cloth or oven glove when touching the handle, but do not touch the disc as it will be very hot

Can be used as a heat diffuser simmer (ing) ring to distribute and lower the heat for preparing sauces, melting foods etc

Can also be used on gas stove crossbars as a hob trivet so that espresso makers, small pans can stand securely on the hob

can be used on the bars of a barbeque to allow for cooking in terracotta

Please allow the disc to cool down naturally

Do not use this disc as a grill or a toaster

Do not put a hot disc into water as this could stress in the material, causing the disc to distort which may affect the future performance of the diffuser

£24.99

Induction Interface & Diffuser Plate 19cm
Model: PH 060

<i>Manufacturer: Oxo Good Grips</i>
Pop Container Small Square 2.0L Tall
<p>The OXO Good Grips POP Containers are airtight, stackable and space-efficient, making it easy to keep your dry foods fresh and your kitchen organized. The containers have a unique push-button mechanism that creates an airtight seal with just one touch. The button also serves as a handle to lift off the lid.</p> <p>The containers are designed for modular stacking so that you can efficiently organize your countertop and pantry. In addition, they are also great for use in the garage, sewing room, play room and more. In fact, the containers can be used in so many places that you'll want them POPping up everywhere.</p> <p>Airtight seal with the press of a button Container corners allow for easy pouring Pop-up button serves as handle to lift off lid W:10.6 x D:10.6 x H:32cm 2.0litre is the ideal size for spaghetti, bread sticks and more Lid comes apart for thorough cleaning POP containers are BPA free For a demonstration of this product please click on the link below.</p>
